Reg. No. 398/CPWS/PT

Date: - 16-04-2016

Patient's Name : Raj Kumar
Age : 42 Years old
Sex : Male
Patient Belong to : Delhi

Patient Details: Raj Kumar is a 42 yrs old patient suffering from Aplastic Anemia Bone Marrow Disease & Breakage of chromosomes) he was getting treatment at Lal Bahadur Shastri Hospital Delhi since Nov 2015 but then the case was referred to Dr. Ram Manohar Lohia Hospital Delhi where he was admitted for about 10 days . Since his condition was deteriorating, the case has now been referred to AIIMS, New Delhi for further treatment. Some of the medical tests are enclosed in the matter .The patient is very very poor living in Jhuggi Jhopadi colony kalyanpuri Delhi with practically very less earnings in his family which consist of 5 members including 2 daughters. He needs money for the costly treatment and the estimated cost as given by AIIMS is Rs. 7.3 lakhs. Hence we look forward to you for your kind help in this matter.

FAMILY DETAILS

Father's Name : Sh. Ram Nihor
Age : A/M
Patient Occupation : Mason- Daily Wager
No. of family members : 5 members
Total annual family income : very meagre

MEDICAL TREATMENT'S DETAILS

Disease suffering from : Aplastic Anemia
Treatment prescribed : Chemotherapy & Medicines
Concern Doctor : HOD
Cost of treatment : Rs. 7.3 Lakhs(approx.)
Hospital Name and Address : A.I.I.M.S. New Delhi

Declaration

I declare that the information given above is correct and complete in all respects and I am not in a position to arrange funds for the purpose stated above.

The case forwarded AIIMS, New Delhi

TO WHOM IT MAY CONCERN

This is to certify that

Patient Name RAJ KUMAR

Age: 42 Gender: M

S/o/D/o/W/o RAM NIDAN

OPD/CR No. 101485739

is suffering from Diagnosis Splashi anemia

and is under treatment from department of Hematology, AIIMS.

It is proposed to treat the patient with Chemotherapy/Immunomodulation/Bone marrow transplantation/Other therapy. This treatment is potentially life saving for a serious hematological illness. The family is poor and cannot afford the treatment.

The approximate cost of the total treatment amounts to Rs. 7.3 LAKH (SEVEN LAKH THIRTY THOUSAND). An approximate breakdown is given under the subheadings listed below. The cost under one subheading may exceed the projected estimate and the excess would then be used from the other subheading.

1. Chemotherapy	
2. Antithymocyte globulin (ATGAM)	4.7 LAKH (Four lakh seventy thousand)
3. Antibiotics	30000
4. Blood component kits and tests	50000
5. Growth factors	—
6. Room charges for Isolation	30000
7. Post Transplant Immunosuppression	1 Lakh
8. Miscellaneous charges (Cyclosporine)	50000
9. Total	7.30 LAKH

This certificate is being issued to avail financial assistance only. Financial assistance may be given on humanitarian grounds. The cheque is to be issued in favour of Director, AIIMS, New Delhi.

Name	: Mr. RAJ KUMAR	Collected	: 19/12/2015 5:00:00PM
Lab No.	: 107920205	Age: 42 Years	Gender: Male
A/c Status	: P	Ref By: RMLH	Report Status: Final
		Received	: 19/12/2015 7:39:40PM
		Reported	: 21/12/2015 8:55:11PM

Test Name	Results	Units	Bio. Ref. Interval
BONE MARROW EXAMINATION			
SPECIMEN	Bone marrow aspirate.		
HISTORY	H/o of malena with fresh blood.		
GROSS	Received 4 unstained slides and 2 EDTA sample.		
PERIPHERAL SMEAR	Sparsely distributed RBCs. Predominantly normocytic normochromic RBCs with polychromasia. There is leucopenia with severe thrombocytopenia.		
CELLULARITY	Bone marrow aspirate are normocellular for age.		
ERYTHROID SERIES	Erythroid series is depressed however shows normoblastic maturation.		
MYELOID SERIES	Myeloid series show full maturation. There is presence <u>plasma cells</u> (36% of the total nucleated cells).		
MEGAKARYOCYTES	Megakaryocytes are reduced in number.		
IMPRESSION	Suggestive of plasma cell dyscrasia - To rule out multiple myeloma.		
ADVISE	Correlate with radiological, biochemical and clinical findings.
